The Worship Center Phone # 676-1040

Last week we had an incident where the school phone lines were disconnected momentarily. We still had phone service on the church lines, but the two school lines were dead. No, it wasn't because we didn't pay the bill! ☺ We didn't even know it was happening until a concerned parent sent us an email. We just thought we were having a nice quiet morning! In light of this, we want to give our families the church phone number in case you should ever need to contact us and have trouble getting through. Please add this number to your contact lists. It has also been added to the numbers below.
